

Survey for the 2022-2045 Draft Kentucky Long-Range Statewide Transportation Plan

We Want Your Input on the Draft Long-Range Statewide Transportation Plan (LRSTP).

As we set the course for the future of Kentucky's multimodal transportation system, the Kentucky Transportation Cabinet (KYTC) is giving everyone a voice in the planning process. The input you provide will help shape the direction of statewide transportation planning between now and 2045. Please complete this short, confidential survey and help us Get There Together!

To fully understand the survey, please read the 2022-2045 Draft LRSTP located at:
<https://gettheretogetherky.org>. We appreciate your valuable input.

The 2022-2045 Draft LRSTP was compiled using input from existing plans and reports, a scenario planning analysis, KYTC leadership, stakeholders, and the public. It is a policy-oriented document that establishes goals, guiding principles, and strategic actions to work toward the vision for Kentucky's multimodal transportation system.

The vision of the 2022-2045 LRSTP is to provide a viable, reliable, and resilient multimodal transportation system to provide access and mobility for all users for the safe movement of people and goods.

Looking toward 2045, the KYTC faces many challenges in delivering on this vision - decreasing revenues from fuel taxes, disruptions from extreme weather events, and rapidly changing technologies. This plan includes implementation plan recommendations to address opportunities as well as these challenges.
